

*A learning and solution-driven company providing innovation to confront industry challenges. We enable our customers to adapt to changing environments through consulting, management services, and mobilization of the right people, at the right time. SKAA provides comprehensive program development, project management, data analytics, lean process improvement, change management, organizational development, and systems engineering.*

### **Our Leadership Philosophy**

SKAA was established under the auspice that integrity, continuous learning, sound logic, hard work, and dedication are the hallmarks of an effective organization. **SKAA believes that people are the foundation of our organization, that their success is our success.** So, we endeavor to strike a balance between reliable customer service, continuous fiscal growth, individual betterment/refinement of our workforce, and life outside of work.

### **Our Learning Organization**

We espouse the concepts and principles of a Learning Organization. Continuous learning is our key to relevance and innovation. **At SKAA, we believe in high-level R&D combine with a flexible and agile organizational structure to capture and capitalize on innovative ideas.** This allows us to drive innovation to our customers by offering them relevant, creative, and leading-edge solutions to industry challenges and technology needs.

### **Program Management/Implementation & Organizational Development - NAICS:541611,923130,92110...**

Organizations that survive the test of time are highly adaptive and flexible, and know how to manage their affairs accordingly. We understand program management and its vital role in modern organizations. We utilize certified project management professionals and methodologies to do identify the right projects at the right time with the right people to most effectively meet today's challenges. We have over 10 years of experience supporting organizational development through synchronous and asynchronous training administration and development of learning solutions.

### **Healthcare Administration & Information Systems - NAICS:621111,923120, 923140....**

We understand that affordable access to healthcare is one the most challenging issues faced by this generation and will continue challenge future leaders. With 45 years of combined Healthcare experience SKAA has the industry knowledge to help effectively transform healthcare systems while complying with regulatory requirements. We recognize that robust healthcare data is a vital tool for keeping populations healthy.

### **Systems & Software Engineering & Data Management - NAICS:541511,541512,54513...**

The world's infrastructures are powered by information technology, and evolve based our ability to grasp and apply new ideas and technology. We understand IT system architecture and approaches to implementation through current methodologies and practices. Our experience includes project management support to cloud integration, database administration, and implementation of Electronic Health Record (EHR) systems.

### **Geospatial Information Systems (GIS) & Analytics - NAICS:541360,541690...**

Understanding how data and information is correlated to a region, local, and populous is essential to unlocking the right solutions to today's challenges. SKAA understands how GIS can converge with a variety of industries to provide enhanced data analytics. We have over 17 years of experience providing support to geospatial analytics and production within the Intelligence Community. We understand the unique nature of Geospatial Intelligence and the critical issues emerging in the community, such as big data analytics, automated processing, and cloud integration.
